CV no / ID:	45087
Main Expertise:	Manual QA Testing
IT Experience since:	2023
Education degree:	n/a
Other notes:	Mid QA engineer with experience in embedded testing, available for PT projects, up to 15 hours per week, during evenings

Summary

She studied tourism but quickly discovered a passion for software development, particularly software testing. Proactive and ambitious, she continuously seeks innovative ways to improve testing processes and support the development cycle. She is committed to delivering high-quality products, embraces challenges, and is focused on expanding her skills in automation.

Skills/Competencies:

Advanced:	Manual QA Testing, Test Case Design & Maintenance, Bug Reporting
High Competence:	Test Planing, Regression Cycle Management, Agile
Intermediate Knowledge:	Bitbucket, Jenkins, CI/CD, Figma, Python
Basic Knowledge:	Automation Testing

Project Experience:

Oct 2023 - Present
