CV no / ID:	45658
Main Expertise:	AI-Native Systems, Full-Stack Development
IT Experience since:	2016
Education degree:	Bachelor's Degree in Informatics Engineering
Other notes:	Full-time candidate, available to start working almost immediately.

Summary

Senior Full-Stack Developer and Software Architect with nearly a decade of experience building and scaling products end to end. Works across product definition, architecture, implementation, and DevOps to deliver software that stays maintainable under real business pressure.

In recent years, has focused strongly on AI-native systems, including LLM agents, RAG workflows, and automation pipelines integrated into SaaS products. He is comfortable leading technical direction while staying hands-on in delivery, helping teams move faster with clear priorities and reliable execution.

Skills/Competencies:

Expert:	Java, Javascript, HTML/CSS. Python, Typescript, Bash/Powershell, SpringBoot, Next.js, React.js, Docker, Kubernetes, Helm, AWS, Openstack, Ansible/Terraform
Advanced:	Angular, Tailwind, Jenkins, Grafana, Loki, Prometheus, LLMs, OpenAI, Ollama, Claude Code/Codex, RAG, n8n, LangChain, MCP Servers
High Competence:	Fast API, Django, ElasticSearch, SonarQube, Azure, Whisper STT/TTS

Project Experience:

IT SKILL HOUSE
IT skill with care, quality and commitment

Sep 2023 - Present

AI and Automation Engineer

N/A

- LLM-powered agents, n8n workflows, RAG (retrieval-augmented generation), LangChain, MCP servers and STT/TTS integration.
- Rapid SaaS prototyping with Next.js integrating AI agents.
- Led migration from traditional VM-based environments to Kubernetes using Flux Operator, Helm and Docker.

Tech stack: Next.js, Typescript, LLM, RAG, n8n, LangChain, MCP, Kubernetes, Flux, Helm, Docker.

Jun 2025 – Aug 2025

React and Cloud Engineer

N/A

- Developed frontend features and interfaces using React.
- Designed and implemented AWS infrastructure with EC2, Secrets Manager, Lambda, DynamoDB and S3.

Tech stack: React.js, AWS, EC2, Secrets Manager, Lambdas, DynamoDB, S3.

Sep 2022 – Jul 2024

Tech Lead & DevOps Engineer

N/A

- Tech Lead in a team of 5 engineers, driving delivery standards and technical direction.
- Developed APIs with Go, Python, FastAPI and Django, and built React-based metrics dashboards.
- Implemented Bash and PowerShell automation and improved CI/CD workflows on Azure.
- Set up and operated Grafana, Loki and Prometheus stacks, including dashboards and alerting.

Tech stack: Go, Python, FastaPI, Django, React.js, Azure, Bash, Powershell, Grafana, Loki, Prometheus, CI/CD, DevOps.

Jan 2021 – Sep 2022

React Developer & DevOps Engineer

N/A

- Built and maintained a set of three actuarial software applications using React.
- Standardized frontend systems using MUI and Ant Design to improve consistency and delivery speed.
- Deployed frontend applications on Azure Kubernetes Service (AKS) using Docker and Helm.
- Led migration of multiple web services from on-prem to Azure, including architecture planning and implementation.

Tech stack: React.js, MUI, Ant Design, Azure, AKS, Docker, Helm, CI/CD, DevOps.

Jan 2017 – Jan 2021

Full Stack Engineer

N/A

- Designed and delivered REST APIs and CLI tools with Java and Spring Boot for enterprise platforms.
- Automated UNIX operations with Python and Bash scripting, including Terraform and Ansible infrastructure tasks.
- Worked primarily with OpenStack and AWS for cloud workloads.
- Built the frontend of an infrastructure e-store using Angular.
- Integrated quality and observability tooling with Elasticsearch, SonarQube and Jenkins.

Tech stack: Java, Spring Boot, REST API, CLI, Python, Bash, Terraform, Ansible, UNIX, OpenStack, AWS, Docker, Helm, Angular, ElasticSearch, SonarQube, Jenkins.

Feb 2016 - Jan 2017

Junior Full-stack Developer

N/A

- Android and Hybrid app development.
- REST API development using Spring Boot (Java).
- Automation scripting using JavaScript and Python.

Tech stack: Java, Spring Boot, Android, Python, Javascript.

IT SKILL HOUSE
IT skill with care, quality and commitment

Education:

2014 - 2018	Polytechnic University of Catalonia, Bachelor's Degree in Informatics Engineering

Languages:

Spanish	Native or Bilingual proficiency
Catalan	Native or Bilingual proficiency
English	Full professional proficiency
